

Experiment 10: Student Information System

Question:

Create a simple cloud software application to run a **C Program for displaying student information** using any Cloud Service Provider with student details, courses, grades, attendance reports, progress reports, and semester mark sheets.

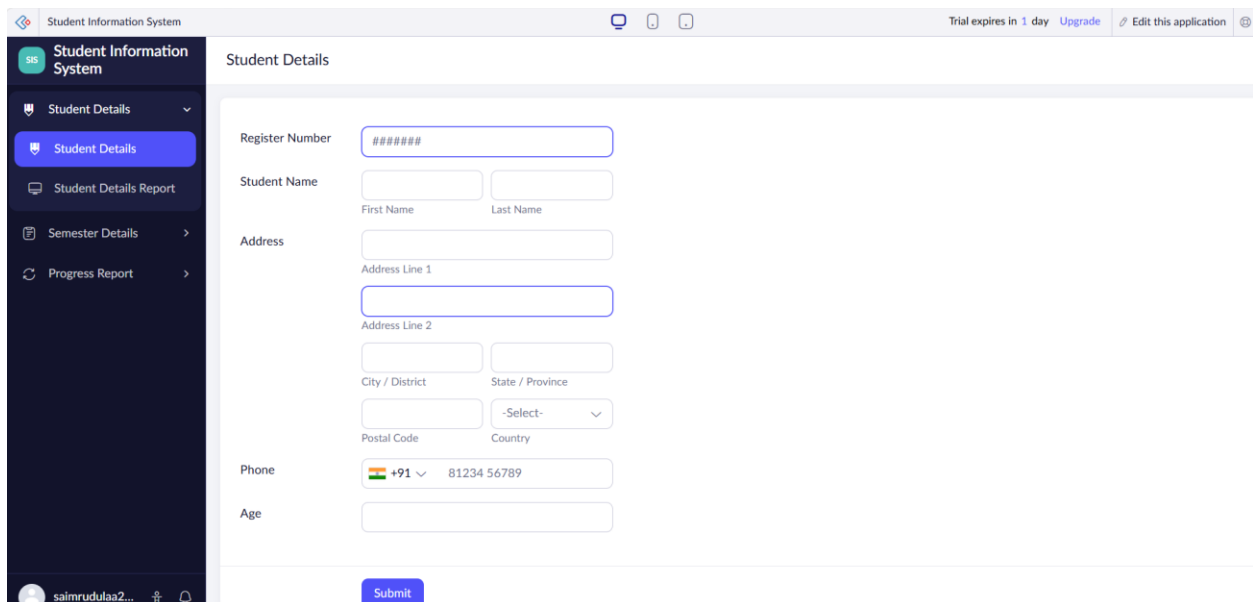

Aim:

To develop a cloud-based Student Information System for maintaining student academic information and displaying records through a C program.

Procedure:

1. Create Student Details, Semester Details, and Progress Report forms.
2. Enter student information and academic records.
3. Link Student and Semester forms using Lookup fields.
4. Store attendance and mark sheet information.
5. Generate reports.
6. Test the application.
7. Publish the application.

Implementation:

The screenshot displays the 'Student Information System' web application. The interface includes a dark sidebar on the left with navigation options: 'Student Details' (selected), 'Student Details Report', 'Semester Details', and 'Progress Report'. The main content area is titled 'Student Details' and contains a form for entering student information. The form fields are as follows:

- Register Number: A text input field with a placeholder '#####'.
- Student Name: Two text input fields labeled 'First Name' and 'Last Name'.
- Address: Two text input fields labeled 'Address Line 1' and 'Address Line 2'.
- City / District: A text input field.
- State / Province: A dropdown menu with '-Select-' as the placeholder.
- Postal Code: A text input field.
- Country: A dropdown menu with a flag icon and 'India' as the selected option.
- Phone: A text input field with a placeholder '+91 81234 56789'.
- Age: A text input field.

A 'Submit' button is located at the bottom right of the form. The top of the application shows a header with the title 'Student Information System', a trial expiration notice 'Trial expires in 1 day', and links for 'Upgrade' and 'Edit this application'.

Result:

A cloud-based Student Information System was successfully developed. The application stores student details, attendance, progress reports, and semester mark sheets for easy retrieval and display.
