

Experiment 3: Car Booking Reservation System

Question:

Create a simple cloud software application for a **Car Booking Reservation System** using any Cloud Service Provider with fields such as Search Cabs, From, To, Rental, Outstation, Package Type, Hours, and Days.

Aim:

To develop a cloud-based Car Booking Reservation System for booking vehicles and managing customer reservations.

Procedure:

1. Create a new application.
2. Create Customer, Car Details, and Booking forms.
3. Add booking information including pickup location, destination, package type, and rental duration.
4. Link Customer and Car forms using Lookup fields.
5. Generate booking reports.
6. Test booking functionality.
7. Publish the application.

Implementation:

The screenshot displays a web browser window with the URL https://creatorapp.zoho.in/saimrudulaa2087.sse_savee/car-booking-system#Form:Customer. The application is titled "Car Booking System" and is in a "Customer" form. The form includes the following fields:

- Customer ID: A single-line text input field.
- Name: Two text input fields for "First Name" and "Last Name".
- Phone: A text input field with a country code dropdown set to "+91" and a value of "81234 56789".
- Email: A text input field.
- Address: Two text input fields for "Address Line 1" and "Address Line 2".
- City / District: A text input field.
- State / Province: A dropdown menu.
- Postal Code: A text input field.
- Country: A dropdown menu.

A "Submit" button is located at the bottom right of the form. The left sidebar shows the navigation menu with options: Customer, Customer Report, Car Details, and Booking. The top right of the application shows a trial expiration notice: "Trial expires in 1 day Upgrade Edit this application Help".

The screenshot displays the same web application, but now showing the "Car Details" form. The form includes the following fields:

- Car ID: A single-line text input field.
- Car Name: Two text input fields for "First Name" and "Last Name".
- Vehicle Number: A text input field.
- Car Type: A dropdown menu.
- Seating Capacity: A text input field with a placeholder "#####".
- Ac/Non AC: A dropdown menu.
- Price: A text input field with a placeholder "###,###,###".
- Driver Name: Two text input fields for "First Name" and "Last Name".
- Status: A dropdown menu.

A "Submit" button is located at the bottom right of the form. The left sidebar shows the navigation menu with options: Customer, Car Details, Car Details Report, and Booking. The top right of the application shows the same trial expiration notice: "Trial expires in 1 day Upgrade Edit this application Help".
