

# Experiment 8: Student Counselling System

## Question:

Create a simple cloud web application for a **Student Counselling System** using any Cloud Service Provider with student details, academic information, and domain interest.

## Aim:

To develop a cloud-based Student Counselling System for managing student academic and counselling records.

## Procedure:

1. Create Student Registration, Academic Details, and Counselling forms.
2. Enter student personal and academic information.
3. Link Academic Details with Student Registration using Lookup fields.
4. Record counselling sessions and recommendations.
5. Generate counselling reports.
6. Test the application.
7. Publish the application.

## Implementation:

The screenshot displays a web application interface for a 'Student Counselling System'. The browser address bar shows the URL: [https://creatorapp.zoho.in/saimrudulaa2087.sse\\_savee/student-counselling-system1#Form:counsellor\\_assignment](https://creatorapp.zoho.in/saimrudulaa2087.sse_savee/student-counselling-system1#Form:counsellor_assignment). The application has a dark sidebar menu with options: Dashboard, Counselling Sess..., Counsellor Assign..., + Counsellor Assign..., Counsellor Assign..., Board, FollowUp Action, Student Informati..., and Academic Progress. The main content area is titled 'Counsellor Assignment' and contains the following form fields:

- Counsellor:
- Student:
- Assignment Date:
- Status:
- Caseload Size:
- Last Review Date:

At the bottom of the form are two buttons: 'Submit' (purple) and 'Reset' (white).

Student Counselling System

Academic Progress Report

| Student | Term        | GPA  | Credits Earned | Academic Status | Recommendations                         | Review Date |
|---------|-------------|------|----------------|-----------------|-----------------------------------------|-------------|
| 2       | Spring 2026 | 3.55 | 120            | Dismissed       | Consistent effort across all subjects   | 27-Jul-2026 |
| 3       |             |      |                |                 |                                         |             |
| 1       | Fall 2026   | 3.60 | 120            | Probation       | Good progress with minor adjustments    | 27-Jul-2026 |
| 2       |             |      |                |                 |                                         |             |
| 1       | Summer 2026 | 3.70 | 60             | Good Standing   | Strong improvement in lab skills        | 27-Jul-2026 |
| 2       |             |      |                |                 |                                         |             |
| 3       |             |      |                |                 |                                         |             |
| 1       | Spring 2026 | 3.92 | 120            | Probation       | Outstanding research project completion | 27-Jul-2026 |
| 2       |             |      |                |                 |                                         |             |
| 1       | Fall 2026   | 3.85 | 120            | Graduated       | Excellent performance in core courses   | 27-Jul-2026 |
| 2       |             |      |                |                 |                                         |             |
| 4       |             |      |                |                 |                                         |             |

Showing 5 of 5

## Result:

A cloud-based Student Counselling System was successfully developed. The application stores student profiles, academic records, counselling sessions, and recommendations effectively.
